The American Journal of PATHOLOGY

OFFICIAL PUBLICATION OF
THE AMERICAN ASSOCIATION OF PATHOLOGISTS AND BACTERIOLOGISTS
THE AMERICAN SOCIETY FOR EXPERIMENTAL PATHOLOGY

Volume 70, 1973

(January through March)

BOARD OF EDITORS

Thomas D. Kinney, *Editor-in-Chief*
Donald B. Hackel, *Associate Editor*

Orville T. Bailey	John B. Hazard
Frederick F. Becker	Robert H. Heptinstall
Baruj Benacerraf	Paul Kotin
Kurt Benirschke	Averill A. Liebow
Kenneth M. Brinkhous	Guido Majno
Joel G. Brunson	Donald G. McKay
John R. Carter	Henry D. Moon
Charles G. Cochrane	Councilman Morgan
John M. Craig	Goetz W. Richter
Frank J. Dixon, Jr	David T. Rowlands, Jr
John T. Ellis	Edward A. Smuckler
Frank W. Fitch	Leon Sokoloff
Patrick J. Fitzgerald	Benjamin H. Spargo
David G. Freiman	Lewis Thomas
Jack C. Geer	Jacinto J. Vazquez
Gabriel Godman	F. Stephen Vogel

Editorial Assistant: Virginia Hotelling

CONTENTS FOR VOLUME 70, 1973

January

1 Differential Morphology of Mouse Spleen Cells Stimulated *In Vitro* by Endotoxin, Phytohemagglutinin, Pokeweed Mitogen and Staphylococcal Enterotoxin B
J. W. Shands Jr, D. L. Peavy and R. T. Smith

25 The Participation of the Platelet in the Vascular Response to Endotoxemia in the Rabbit Eye
Edward L. Howes Jr, Donald G. McKay and William Margaretten

45 The Fine Structure of Freeze-Fractured Blood Platelets
James G. White and William J. Conard

57 Alterations in the Bactericidal Ability of Rabbit Alveolar Macrophages as a Result of Tumbling Stress
Virginia G. Lockard, James B. Grogan and Joel G. Brunson

69 Intramitochondrial Glycogen in Hypertrophied Infundibular Muscle of Patients with Congenital Heart Diseases
Michael Jones and Victor J. Ferrans

89 *Plasmodium berghei* Infection in Mice: An Ultrastructural Study of Immune Complex Nephritis
Vijitr Boonpucknavig, Somnate Boonpucknavig and Natth Bhamarapravati

109 A Fine Structural Characterization of the Proliferated Endocrine Cells in Atrophic Gastric Mucosa
Walter Rubin

119 Mitochondrial Proliferation Within the Nephron. I. Comparison of Mitochondrial Hyperplasia of Tubular Regeneration with Compensatory Hypertrophy
Francis E. Cuppage, Masahiro Chiga and A. Tate

131 Demonstration of Antigenic Sites in Glomeruli of Patients with Acute Poststreptococcal Glomerulonephritis by Immunofluorescein and Immunoferritin Technics
N. Yoshizawa, G. Treser, I. Sagel, A. Ty, U. Ahmed and K. Lange

151 **Animal Model of Human Disease:** Myocardial Failure, Muscular Dystrophy
Edward W. Gertz

February

155 Platelets in Hyperacute Rejection of Heterotopic Cardiac Allografts in Presensitized Dogs: An Experimental Study
Hari M. Sharma, J. Rosensweig, S. Chatterjee, S. Moore and Marie-Laure de Champlain

175 Renewal of Alveolar Epithelium in the Rat Following Exposure to NO_2
Michael J. Evans, Linda J. Cabral, Robert J. Stephens and Gustave Freeman

199 Cell Division of Alveolar Macrophages in Rat Lung Following Exposure to NO_2
Michael J. Evans, Linda J. Cabral, Robert J. Stephens and Gustave Freeman

209 Relations Between Metabolic Increase of Plasma Free Fatty Acids and the Occurrence of Arteriosclerotic Thromborateritis in Rabbits
Richard A. Scott, Donald E. Henson, Anne Lesak, Robert J. Turner, Stanislava Malikova and George M. Hass

245 The Mechanism of Renal Glomerular Capillary Retention of Carbon in Disseminated Intravascular Coagulation
Kenneth J. Donald, Alan N. Whitaker and Ian H. Bunce

253 Chylomicrons and the Formation of Foam Cells in Type I Hyperlipoproteinemia: A Morphologic Study
Victor J. Ferrans, William C. Roberts, Robert I. Levy and Donald S. Fredrickson

273 **Animal Model of Human Disease:** Hereditary Muscular Dystrophy of Chickens
Logan M. Julian

1a Joint Meeting of The American Association of Pathologists and Bacteriologists, The American Association of Neuropathologists and The Pediatric Pathology Club: Scientific Proceedings, 1973

March

277 The Experimental Production of Hyaline Membranes in Premature Rhesus Monkeys
A. James McAdams, Ronald Coen, Leonard I. Kleinman, Reginald Tsang and James Sutherland

291 Acute and Chronic Effects of Intraperitoneal Injection of Two Types of Asbestos in Rats with a Study of the Histopathogenesis and Ultrastructure of Resulting Mesotheliomas
Moon Lee Shin and Harlan I. Firminger

315 Parainfluenza Virus Sendai Infection in Macrophages, Ependyma, Choroid Plexus, Vascular Endothelium and Respiratory Tract of Mice
Cedric A. Mims and Frederick A. Murphy

329 The Hermansky-Pudlak Syndrome: Ultrastructure of Bone Marrow Macrophages
James G. White, Carl J. Witkop Jr and Sijbrand M. Gerritsen

345 Ultrastructural Autoradiographic Studies of the Early Vasoproliferative Response in Tumor Angiogenesis
Tito Cavallo, Robert Sade, Judah Folkman and Ramzi S. Cotran

363 Pathology of Polychlorinated Biphenyls in Rabbits
Loren D. Koller and Joseph G. Zinkl

379 The Pathogenesis of Epizootic Hemorrhagic Disease of Deer: An Electron Microscopic Study
Kin-son Tsai and Lars Karstad

401 The Effect of Glucose-Insulin-Potassium on Cardiac Ultrastructure Following Acute Experimental Coronary Occlusion
H. D. Sybers, P. R. Maroko, M. Ashraf, P. Libby and E. Braunwald

421 Further Evidence to Suggest That Microbodies Do Not Exist as Individual Entities
Janardan Reddy and Donald Svoboda

439 Loss of Isoantigens A, B and H in Prostate
Raj K. Gupta, R. Schuster and W. D. Christian

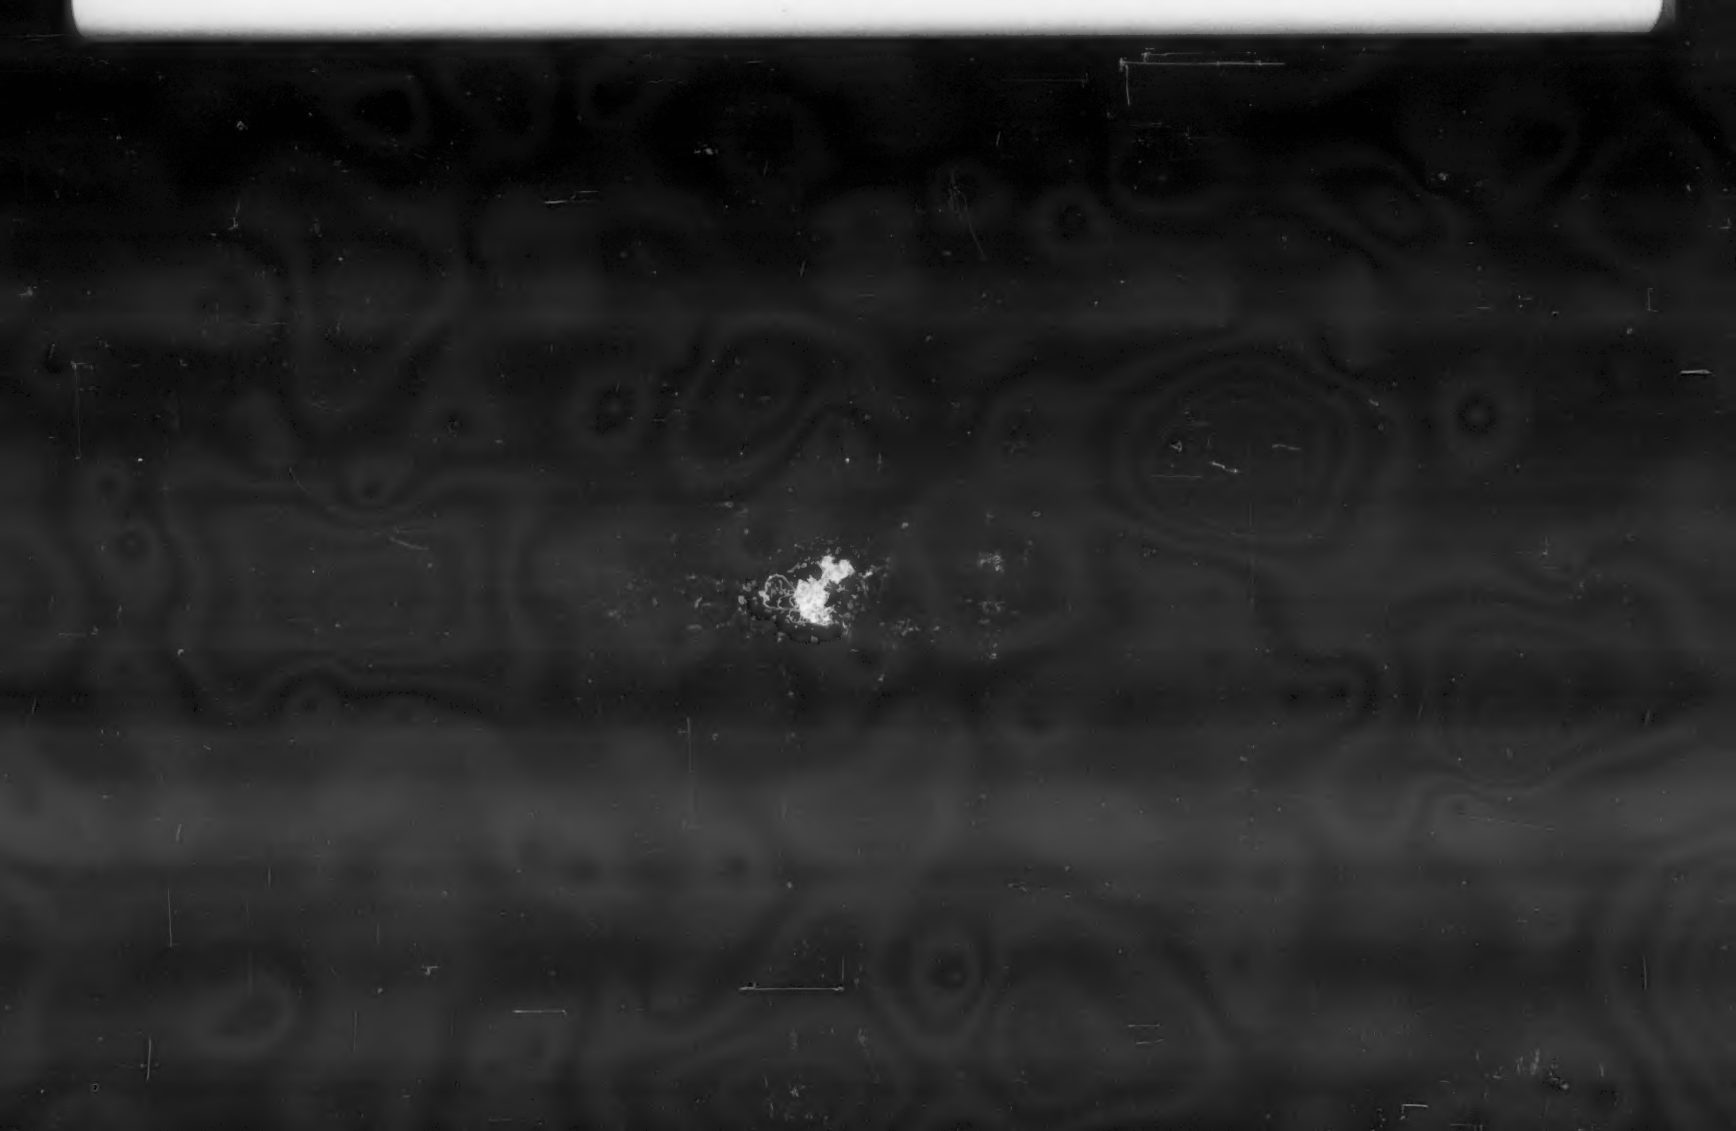
449 Platelet Interaction with Bacteria. III. Ultrastructure
C. C. Clawson

473 Freeze-Etch Observations on the Plasma Membrane and Other Structures of Normal and Abnormal Platelets
R. L. Reddick and R. G. Mason

489 **Animal Model of Human Disease:** Cardiopulmonary Disease
C. F. Chesney and J. R. Allen

493 Index of Subjects, Volume 70

503 Index of Authors, Volume 70



INDEX

SUBJECT

AUTHOR

CONTENTS FOR VOLUME 70

Index of Subjects

Volume 70, 1973

Acrylamide intoxication
central nervous system in, 78a
Adenocarcinoma
clear-cell, of female genital tract, 91a
Adenylate kinase
urinary activity in renal transplant crisis, 5a
Adrenalectomy
and inhibition of nicotine-induced arteriosclerotic thromboarteritis, 92a
Alveolar epithelium
renewal after exposure to nitrogen dioxide, 175
Alveolar macrophages
cell division after exposure to nitrogen dioxide, 199
cortisone affecting, 33a
in parainfluenza virus infection, 315
stress alterations in, 57
Androgen challenge
urinary sex hormone excretion after, and breast cancer, 61a
Angiogenesis
tumor, vasoproliferative response in, 345
Animal Model of Human Disease
cardiopulmonary disease, 489
hereditary muscular dystrophy of chickens, 273
myocardial failure, muscular dystrophy, 151
Antigens
carcinoembryonic, synthesis of, 52a
H-2 type
affecting thymus cells, 53a
double labeling of, 54a
hepatitis-B, kidneys inoculated with, 52a
isoantigen loss in prostate, 439
oncofetal, from embryonic tissues, 11a
sites in glomerulonephritis, 131
smooth muscle, in regenerating epithelia and lymphocytes, 13a
Aorta
changes during reversal of atherosclerotic lesions, 88a
cholesterol transport into, 38a
endothelial cell turnover, 55a
experimental intimal plaques, 37a
myointimal cell proliferation after electric shock, 55a
Aortic valve
calcification of, 88a
Aortocoronary bypass grafts
histologic changes from, 38a
Aroclors
pathologic effects in rabbits, 363
Arterial wall
lipoprotein and protein entry into, 81a
Arthritis, rheumatoid
and binding of concanavalin A by lymphocytes, 48a
Asbestos injections
mesotheliomas from, 291
Atherosclerosis
advanced, reversal of, 41a
aortic changes during reversal of lesions in, 88a
coronary, progression of, in monkeys, 39a
intracranial, 40a
regression of lesions in, 40a
Atherosclerotic thromboarteritis
adrenalectomy affecting, 92a
and plasma free fatty acids, 199
regression of lesions in, 40a
Autolysis
and myocardial respiration and cell volume regulation, 16a
Autonomic nervous system
in cystic fibrosis, 64a
Axon
in sciatic nerve of undernourished rats, 75a

Bacteria
interaction with platelets, 449
intracellular, in bladder malakoplakia, 44a
Bacterial pneumonia, 46a
Bactericidal activity
of alveolar macrophages, stress affecting, 57
Biomembranes
thermal studies of, 14a
Biphenyls, polychorinated
pathologic effects in rabbits, 363
Bladder
malakoplakia of, and intracellular bacteria, 44a
toad, DDT affecting sodium transport in, 58a

tumor induction with 2-AAF, and tryptophan metabolism, 1a
Blastema
renal, and Wilms' tumor, 23a
Blood vessels (*See vascular conditions*)
Bone growth
in fetal animals, 93a
Bone marrow
macrophages in Hermansky-Pudlak syndrome, 329
separation of cells from spleen colony-forming units, 90a
Brain hemorrhage
fetal, 65a
Breast cancer
and selective cell carcinogenesis, 10a
and urinary sex hormone excretion, after androgen challenge, 61a
Bronchiolar changes
from 100% oxygen, 32a
Bronchitis
chronic, and hyaline membrane disease, 22a

Calcification
of aortic valve, 88a
Capillaries
glomerular, carbon retention in disseminated intravascular coagulation, 245
Carbon retention
renal, in disseminated intravascular coagualtion, 245
Carbonic anhydrase
in urinary epithelia, 1a
Carcinoembryonic antigen
synthesis of, 52a
Carcinogenesis
selective cell, in mammary gland, 10a
Carcinomatous prostate
zinc in, 62a
Cardiac conditions (*See heart*)
Carotid body
tumors of, 8a
Cartilage tumors
malignant, in children, 80a
Cell cultures
from urine, 20a
virus-infected, migration inhibitory factors in, 47a
Cell division
of alveolar macrophages, after exposure to nitrogen dioxide, 199
Centrifugation
in isokinetic gradient, 12a
Cerebral artery occlusion
and cerebral hemispheric changes, 67a
Cerebral edema
cold-induced, furosemide in, 78a
Cerebrosides
plasma, in multiple sclerosis, 76a
Cholesterol
transport into aorta, 38a
Chorionic gonadotropin
long-term doses affecting endometrium, 24a
Choroid of eye
in histoplasmosis, 43a
Choroid plexus
in parainfluenza virus infection, 315
Chylomicrons
in hypolipoproteinemia, 253
Cigarette smoking (*See smoking*)
Coagulation
disseminated intravascular, renal carbon retention in, 245
Cold-induced cerebral edema
furosemide in, 78a
Complement
activation by pneumococcus, 48a
in shock lung syndrome, 31a
Concanavalin A
binding by lymphocytes, in rheumatoid arthritis, 48a
Conduction system, myocardial
iatrogenic interruption of, 27a
in sudden death, in infancy, 27a
Connective tissue disease
abnormal lymphocyte structures in, 59a
Contractile apparatus
in nonmuscular cells, 13a
Copper levels
and cigarette smoking in Irish dairymen, 85a
Cornea
tumor growth and neovascularization in, 81a
vascularization in hamster cheek pouch, 57a
Coronary arteries
progression of atherosclerosis in monkeys, 39a
reperfusion affecting myocardial infarct size, 42a
Cortisone
affecting alveolar macrophages, 33a
Creatine kinase
in isoproterenol-induced cardiomyopathy, 56a
Culture of cells
from urine, 20a
virus-infected, migration inhibitory factors in, 47a

Cystic fibrosis
labial salivary gland biopsies in, 64a
pulmonary artery lesions in, 28a
Cytomegalovirus infection
pulmonary lesions in, 46a
DDT
affecting sodium transport in toad bladder, 58a
Demyelination
inflammatory, 75a
in newborn infant, 77a
DiGeorge's syndrome, 26a
DNA
in lungs, during development, 32a
Dwarfism
thanatophoric, 17a

Electric shock
and aortic myointimal cell proliferation, 55a
Embryonic tissues
oncofetal antigen from, 11a
Emphysema
and cigarette smoking in Irish dairymen, 85a
Encephalitis
mumps, 69a
Endocrine cells
in atrophic gastric mucosa, 109
of upper gastrointestinal tract mucosa, 60a
Endocrine function
mediastinal teratoma with, 25a
Endometrium
long-term doses of HCG affecting, 24a
Endothelium
aortic, cell turnover in, 55a
liver, cell proliferation after estrogen, 55a
platelet thrombin-induced injury of, 39a
vascular, in parainfluenza virus infection, 315
Endotoxemia
ocular response to, platelets in, 25
Endotoxin
liver changes from, 57a
mitogenic effect on spleen cells, 1
tolerance to, and survival of fibrosarcoma allografts, 49a
Enterocolitis
necrotizing, 17a
Ependyma
in parainfluenza virus infection, 315
Ependymoma
myxopapillary, of filum terminale, 69a

Epithelium
of alveoli, renewal after exposure to nitrogen dioxide, 175
regenerating, smooth muscle antigens in, 13a
renal proximal tubular, erythrocyte phagocytosis by, 2a
respiratory
acute injury affecting, 35a
cigarette smoke affecting, 35a
urinary, carbonic anhydrase in, 1a
Epizootic hemorrhagic disease
in deer, 379
Erythrocytes
naturally occurring avian agglutinins for, 51a
phagocytosis by renal proximal tubular epithelium, 2a
prostaglandin-induced sickling of, 84a
Estrogen
and endothelial cell proliferation in liver, 55a
Eye
corneal vascularization in hamster cheek pouch, 57a
lesions in histoplasmosis, 43a
response to endotoxemia, platelets in, 25
retinal photocoagulation thresholds, 58a
tumor growth and neovascularization in cornea, 81a

Fallot's tetralogy
pathogenesis of, 36a
Fatty acids, free
affecting neutrophils, 15a
and arteriosclerotic thromboarteritis, 209
Ferritin
in HeLa cells, localization of, 13a
Fetal conditions *(See pregnancy)*
Fibroblast proliferation
inhibition by ouabain, 12a
Fibrosarcoma allografts
pretreatment affecting, 49a
Fibrosis, cystic *(See cystic fibrosis)*
Filum terminale
myxopapillary ependymoma of, 69a
Foam cells
in hyperlipoproteinemia, 253
Furosemide
in cold-induced cerebral edema, 78a

Gangliosidosis
fetal Gm_1 type, 19a
Gastric mucosa
atrophic, endocrine cells in, 109

Gastrointestinal mucosa
endocrine cells in, 60a
Genital tract
female, clear-cell adenocarcinoma of, 91a
Glial fibrillary acidic protein
from brain, 70a
Glomerular conditions *(See kidney)*
Glucose-insulin-potassium
affecting cardiac ultrastructure, 401
Glycogen
in mitochondria, in myocardium, 69
Glycogen synthetase
in scurvy, 64a
Glycogenosis
type VI, 64a
Gonadotropins
chorionic, long-term doses affecting endometrium, 24a
in hepatoblastoma and pituitary, 25a
Grafts *(See transplants)*
Granuloma
sarcoid-like, 89a

Heart
Cardiopulmonary disease, ANIMAL MODEL OF HUMAN DISEASE, 489
autolysis affecting myocardial respiration and cell volume regulation, 16a
changing pattern of cardiovascular malformations, 26a
conduction system in sudden death, in infancy, 27a
creatine kinase in isoproterenol-induced cardiomyopathy, 56a
earliest cellular lesion in myocardial infarction, 82a
glucose-insulin-potassium affecting cardiac ultrastructure, 401
hyperacute rejection of allografts, platelets in, 155
hypertonic solutions affecting hypoxic myocardium, 37a
iatrogenic interruption of conduction system, 27a
immunopathology in myocardial infarction, 50a
mitochondrial glycogen in myocardium, 69
myopathy from dietary lead and vitamin C deficiency, 63a
right ventricular infarcts, 41a
tetralogy of Fallot's pathogenesis, 36a
HeLa cells
ferritin localization in, 13a
Hemorrhage
brain, fetal, 65a
Hemorrhagic disease
epizootic, in deer, 379
Hemorrhagic shock
and mast cell morphology, 16a
and nitroblue tetrazolium reduction by neutrophils, 87a
and pulmonary changes after vascular reinfusion, 88a
Hepatitis
kidneys inoculated with hepatitis-B antigen, 52a
and virus-like particles in liver cells, 47a
Hepatoblastoma
gondadotropins in, 25a
Hepatocytes
separation from liver cells in tissue culture, 94a
Hermansky-Pudlak syndrome, 329
Heroin addicts
fetal growth in offspring of, 85a
Herpes simplix virus
in trigeminal ganglia, 70a
Hexachlorophene
neurotoxicity of, 19a
Histiocytoma
induction by methylhydrazine, 10a
Histoplasmosis
ocular lesions in, 43a
Hyaline membrane disease
and chronic bronchitis, 22a
Hyaline membranes
experimental production of, 277
Hydranencephaly
nervous system in, 66a
Hyperbaric oxygen
responses to, in rats, 21a
Hyperlipoproteinemia
foam cells and chylomicrons in, 253
Hypertension, pulmonary
ANIMAL MODEL OF HUMAN DISEASE, 489
and intralobar sequestration, 33a
pulmonary artery lesions in, 28a
two forms of, 34a
Hypertonic solutions
affecting hypoxic myocardium, 37a

Immune complex nephritis, 89
Immune response
fetal, maternal influences on, 84a
Immunopathology
in myocardial infarction, 50a
renal, in pregnant guinea pigs, 4a
Immunosuppression
and strongyloidiasis, 43a
and transmission of *M Leprae*, 45a

Inclusion bodies
in mumps encephalitis, 69a
Infarction
myocardial
coronary artery reperfusion affecting, 42a
earliest cellular lesion in, 82a
immunopathology of, 50a
right ventricular, 41a
Insulin-glucose-potassium
affecting cardiac ultrastructure, 401
Interferon
release by liver slices, 11a
Islet cell neoplasms
secretion in, 60a
Isoantigen loss
in prostate, 439
Isokinetic gradient
centrifugation in, 12a
separation of spleen colony-forming units in, 90a
Isoproterenol-induced cardiomyopathy
creatine kinase in, 56a

Kidney
adenylate kinase activity in transplant crisis, 5a
antigenic sites in glomerulonephritis, 131
biopsies after lead exposure, 2a
dysplasia of, unilateral multicystic, 23a
erythrocyte phagocytosis by proximal tubular epithelium, 2a
existing pathology in transplanted kidneys, 49a
glomerular capillary carbon retention, in disseminated intravascular coagulation, 245
glomerular changes in sickle cell disease and nephrotic syndrome, 4a
immunopathological changes in pregnant guinea pigs, 4a
inoculations with hepatitis-B antigen, 52a
mitochondrial proliferation in, 119
mononuclear cells in intrarenal graft-versus-host reactions, 5a
in oxonate-induced hyperuricemia, 3a
unusual examples of Wilms' tumor, 23a

Labial salivary gland
biopsies in cystic fibrosis, 64a
Lead exposure
liver changes from, 57a
myopathy from, 63a
renal biopsies after, 2a
Light-optical micrography
depth-of-field extension in, 87a
Lipids
thermal studies of, 14a
Lipoprotein
entry into arterial wall, 81a
foam cells and chylomicrons in hyperlipoproteinemia, 253
Liver
changes after lead and endotoxin, 57a
endothelial cell proliferation after estrogen, 55a
in FM mice, 77a
gonadotropins in hepatoblastoma, 25a
lysosome-vacuolar system reactivity, after hepatectomy, 82a
microbodies of, 421
protein deficiency affecting, 63a
virus-like particles in cells, in hepatitis, 47a
Lung
cancer of, and cigarette smoking in Irish dairymen, 85a
in cytomegalovirus infection, 46a
DNA content during development of, 32a
hypertensive lesions in intralobar sequestration, 33a *(See also hypertension, pulmonary)*
organelles of, 30a
oxygen tolerance in, 31a
postuterine development in opossum, 20a
RNA synthesis in nuclei of, 30a
shock lung
compared to respiratory distress in newborn, 22a
complement in, 31a
silicosis, acute, 34a
vascular changes after Waterston shunt, 28a
after vascular reinfusion in hemorrhagic shock, 88a
Lymphocytes
abnormal structures in connective tissue disease, 59a
binding of concanavalin A by, in rheumatoid arthritis, 48a
plasma membranes of, 14a
smooth muscle antigens in, 13a
in spleen, radiation affecting, 86a
Lymphoma cells
live, doses of, 89a
naturally occurring avian agglutinins for, 51a

Lysosome-vacuolar system reactivity
after hepatectomy, 82a

M-protein
of group A streptococci, 44a
Macrophages
alveolar
cell division after exposure to nitrogen dioxide, 199
cortisone affecting, 33a
in parainfluenza virus infection, 315
stress alterations in, 57
bone marrow, in Hermansky-Pudlak syndrome, 329
migration inhibitory factors in virus-infected cell cultures, 47a
Magnesium deficiency
and effects of doses of live lymphoma cells, 89a
Malakoplakia
bladder, and intracellular bacteria, 44a
Mammary gland
breast cancer and urinary sex hormone excretion, after androgen challenge, 61a
selective cell carcinogenesis in, 10a
Manganese levels
in Reye's syndrome, 93a
Mast cells
morphology after hemorrhagic shock, 16a
Mediastinal teratoma
with endocrine function, 25a
Melanomas
comparative study of, 9a
hereditary, in fish, 92a
Mesothelioma
from asbestos injection, 291
pleural, 6a
ultrastructure of, 7a
Methylhydrazine
for histiocytoma induction, 10a
Microbodies
hepatic, 421
Micrography
light-optical, depth-of-field extension in, 87a
Migration inhibitory factors
in virus-infected cell cultures, 47a
Mitochondria
conformational changes in injured cells, 83a
glycogen in, in myocardium, 69
proliferation in nephrons, 119
Mitogen responses
in spleen cells, radiation affecting, 86a
Mitogens
affecting spleen cells, 1
affecting thymus cells, 53a
Mononuclear cells
in intrarenal graft-versus-host reactions, 5a
Morphology
of stimulated spleen cells, 1
Mortality Registry
perinatal, 86a
Mumps encephalitis, 69a
Muscle fibers
fetal, 74a
Mycobacterium leprae
transmission in immunosuppressed mice, 45a
Myelin
demyelination in newborn infant, 77a
inflammatory demyelination, 75a
in sciatic nerve of undernourished rats, 75a
Myocardium *(See heart)*
Myopathy
spheroid body, 74a
Myxopapillary ependymoma
of filum terminale, 69a

Necrosis
in vitro, and nuclear hypertrophy of pancreatic cells, 56a
Necrotizing enterocolitis, 17a
Neoplasia *(See tumors)*
Nephritis
immune complex, 89
Nephroblastomatosis
and Wilms' tumor, 23a
Nephrotic syndrome
glomerular changes in, 4a
Nerves
norepinephrine in, reserpine affecting, 67a
peripheral, degeneration of, phagocytes in, 76a
Nervous system
autonomic, in cystic fibrosis, 64a
central
in acrylamide intoxication, 78a
in FM mice, 77a
in hydranencaphaly, 66a
hypoxia of, cerebellum in, 66a
Neuroblastoma
electron microscopy in diagnosis of, 7a
in situ, 24a
Neurotoxicity
of hexachlorophene, 19a
Neutrophils
free fatty acids affecting, 15a

nitroblue tetrazolium reduction by, in hemorrhagic shock, 87a
Nitroblue tetrazolium
reduction by neutrophils, in hemorrhagic shock, 87a
Nitrogen dioxide exposure
and alveolar epithelium renewal, 175
and cell division of alveolar macrophages, 199
Norepinephrine
in nerves, reserpine affecting, 67a

Ocular conditions *(See eye)*
Organelles
pulmonary, 30a
Ossification
fetal, 93a
Ouabain
inhibiting fibroblast proliferation, 11a
Ovary
clear-cell tumors of, 91a
Oxonate-induced hyperuricemia
nephropathy in, 3a
Oxygen
bronchiolar changes from, 32a
cerebellum in CNS hypoxia, 66a
hyperbaric, rat responses to, 21a
tolerance in lung, 31a

Pancreas
protein deficiency affecting, 63a
Pancreatic cells
nuclear hypertrophy during *in vitro* necrosis, 56a
Parainfluenza virus infection
in mice, 315
Peripheral nerve degeneration
phagocytes in, 76a
Phagocytes
in peripheral nerve degeneration, 76a
Phagocytosis
of erythrocytes, by renal proximal tubular epithelium, 2a
Photocoagulation thresholds
retinal, 58a
Phytohemagglutinin
mitogenic effect on spleen cells, 1
Pituitary
gonadotropins in, in hepatoblastoma, 25a
polyploidy in, 62a
Placenta
plasma cells of, 18a
prognostic value of pathology in, 90a
Plasma cells
placental, 18a
Plasma membranes
lymphocyte, 14a
platelet, 473
Plasmodium berghei **infection**
in mice, 89
Platelets
freeze-fractured
fine structure of, 45, 473
plasma membrane studies, 473
in hyperacute rejection of cardiac allografts, 155
interaction with bacteria, 449
thrombin-induced endothelial injury of, 39a
in vascular response to endotoxemia in eye, 25
Pleural mesotheliomas, 6a
Pneumococcus
complement activation by, 48a
Pneumonia
bacterial, 46a
Poke weed mitogen
affecting spleen cells, 1
Polychlorinated biphenyls
pathologic effects in rabbits, 363
Polyploidy
in pituitary, 62a
Potassium
blood levels of, and cigarette smoking in Irish dairymen, 85a
Potassium-glucose-insulin
affecting cardiac ultrastructure, 401
Pregnancy
fetal growth in offspring of heroin addicts, 85a
fetal ossification in, 93a
maternal influences on immune response of fetus, 84a
perinatal mortality registry, 86a
placental plasma cells, 18a
prognostic value of placental pathology, 90a
and renal immunopathological change, 4a
Premature monkeys
hyaline membrane production in, 277
Prostaglandin-induced erythrocyte sickling, 84a
Prostate
carcinomatous, zinc in, 62a
isoantigen loss in, 439
Protein
deficiency affecting pancreas and liver, 63a
glial fibrillary acidic, from brain, 70a
entry into arterial wall, 81a
M-protein of group A streptococci, 44a
Prune-belly syndrome, 3a

Pulmonary artery
medial mucoid lesions in disorders, 28a
Pulmonary conditions *(See lung)*
Pulmonary hypertension *(See hypertension, pulmonary)*
Pyrogen
release by liver slices, 11a

Radiation
affecting spleen cells, 86a
Reserpine
affecting norepinephrine in nerves, 67a
Respiratory distress in newborn
compared to shock lung, 22a
Respiratory tract
epithelium of
acute injury affecting, 35a
cigarette smoke affecting, 35a
in parainfluenza virus infection, 315
Retina
photocoagulation thresholds of, 58a
Reye's syndrome
manganese levels in, 93a
Rheumatoid arthritis
and binding of concanavalin A by lymphocytes, 48a
RNA synthesis
in nuclei of lungs, 30a

Salivary gland
labial, biopsies in cystic fibrosis, 64a
Sarcoid-like granuloma, 89a
Sciatic nerve
in undernourished rats, 75a
Sclerosis, multiple
plasma cerebrosides in, 76a
Scurvy
glycogen synthetase in, 64a
Sendai virus infection
in mice, 315
Sex hormone excretion
after androgen challenge, and breast cancer, 61a
Shock, hemorrhagic
and mast cell morphology, 16a
and nitroblue tetrazolium reduction by neutrophils, 87a
and pulmonary changes after vascular reinfusion in, 88a
Shock lung
compared to respiratory distress in newborn, 22a
complement in, 31a
Sickle cell disease
renal glomerular changes in, 4a
Sickling
erythrocyte, prostaglandin-induced, 84a
Silicosis
acute, 34a
Smoking
affecting respiratory epithelium, 35a
in Irish dairymen, 85a
Sodium transport
in toad bladder, DDT affecting, 58a
Spheroid body myopathy, 74a
Spleen
cells stimulated *in vitro*, differential morphology of, 1
in FM mice, 77a
radiation affecting cells, 86a
separation of colony-forming units in isokinetic gradient, 90a
Staphylococcal enterotoxin B
mitogenic effect on spleen cells, 1
Streptococci
virulence of group A, 44a
Stress
Affecting alveolar macrophages, 57
and bactericidal activity of alveolar macrophages, 57
Strongyloidiasis
in immunosuppressed patients, 43a

Teratology
introduction to pathology of, 90a
Teratoma
mediastinal, with endocrine function, 25a
Tetralogy of Fallot
pathogenesis of, 36a
Thanatophoric dwarfism, 17a
Thermal studies
of lipids, 14a
Thromboarteritis, arteriosclerotic
adrenalectomy affecting, 92a
and plasma free fatty acids, 199
regression of lesions in, 40a
Thymus cells
H-2 antigens affecting, 53a
mitogens affecting, 53a
Tobacco use *(See smoking)*
Tracheobronchomalacia, 21a
Transplants
cardiac, platelets in hyperacute rejection of, 155
graft-versus-host chimeras free of renal and hemorrhagic manifestations, 51a
renal *(See kidney)*
Trigeminal ganglia
herpes simplex virus in, 70a
Tryptophan absorption

and bladder tumor induction with 2-AAF, 1a
Tumors
angiogenesis of, vasoproliferative response in, 345
bladder, induction with 2-AAF, and tryptophan absorption, 1a
breast cancer after androgen challenge, 61a
carcinoembryonic antigen, synthesis of, 52a
carotid body, 8a
cartilage, malignant, in children, 80a
cell surface of, 80a
clear-cell adenocarcinoma of female genital tract, 91a
clear-cell tumor of ovary, 91a
comparative study of melanomas, 9a
electron microscopy in diagnosis of neuroblastoma, 7a
fibrosarcoma allografts, pretreatment affecting, 49a
gonadotropins in hepatoblastoma, 25a
growth and neovascularization in cornea, 81a
histiocytoma induction by methylhydrazine, 10a
islet cell, secretion in, 60a
lung cancer and cigarette smoking, in Irish dairymen, 85a
mediastinal teratoma with endocrine function, 25a
mesotheliomas
from asbestos injections, 291
pleural, 6a
ultrastructure of, 7a
multiple spontaneous, in rats, 9a
oncofetal antigens from embryonic tissues, 11a
reproduction by subcellular fractions, 68a
selective cell carcinogenesis in mammary gland, 10a
and somatic cell fusion, 8a
unusual examples of Wilms' tumor, 23a
zinc distribution in carcinomatous prostate, 62a

Uric acid
oxonate-induced hyperuricemia and nephropathy, 3a
Urinary epithelia
carbonic anhydrase in, 1a
Urine
culture of cells from, 20a

Vascular conditions
endothelium in parainfluenza virus infection, 315
response to endotoxemia in eye, platelets in, 25
Vasoproliferative response
in tumor angiogenesis, 345
Virus(es)
in cell cultures, and migration inhibitory factors, 47a
herpes simplex, in trigeminal ganglia, 70a
Virus-like particles
in liver cells, in hepatitis, 47a
Vitamin C deficiency
and lead in diet, myopathy from, 63a

Waterston shunt
and pulmonary vascular changes in lung, 28a
Wilms' tumor
unusual examples of, 23a

Yersinia enterocolitica
and acute enteric disease, 45a

Zinc
in carcinomatous prostate, 62a

Index of Authors

Volume 70, 1973

Adachi M, Tsai CY, Schneck L, Volk BW: Fine structure of the CNS, liver and spleen of FM mice (February) 77a
Adachi M: *See* Wellmann KF, Adachi M, Volk BW 63a
Ahmed U: *See* Yoshizawa N, Treser G, Ty A, Sagel I, Lange K, Ahmed U 131
Aladjem S: *See* Perrin EVD, Aladjem S 90a
Allen JR: *See* Chesney CF, Allen JR 489
Alpert LI, Yang CS: Studies of a carotid body tumor (February) 8a
Altshuler G: Implication of two cases of human placental plasma cells (February) 18a
Alvord EC: *See* Shuman RM, Leech RW, Alvord EC 19a
Applegate CW, Tisher CC: Phagocytosis of morphologically intact erythrocytes by renal proximal tubular epithelium (February) 2a
Arey JB: The changing pattern of cardiovascular malformations at necropsy during a period of 22 years (February) 26a
Ashraf M: *See* Sybers HD, Maroko PR, Ashraf M, Libby P, Braunwald E 401
Baba N, Kim S: Creatine kinase in isoproterenol-induced cardiomyopathy (February) 56a
Baccarini IM: Effects of long term doses of chorionic gonadotrophic hormone on the endometrium of mice (February) 24a
Bain AD: *See* Sutherland GR, Bain AD 20a
Balentine JD: Comparative responses of newborn and adult rats to hyperbaric oxygen exposure (February) 21a
Bandeian S: *See* Porter KR, Fonte VG, Bandeian S 80a
Baringer JR, Swoveland P: Herpes simplex virus in human trigeminal ganglia (February) 70a
Baringer JR: *See* Margolis G, Kilham L, Baringer JR 69a
Basavanand N: *See* Valdes-Dapena Marie, Greene Marguerite W, Basavanad N, Catherman R 27a
Baserga R: *See* Petersen RO, Johnson R, Baserga R 12a
Becker CG, Resnick GD, Shustak SR: On the virulence of group A streptococci (February) 44a
Bencosme SA: *See* Lechago J, Bencosme SA 60a
Benditt EP: *See* Gould VE, Benditt EP 60a
Bensch KG: *See* Ludwin SK, Northway W, Bensch KG 32a
Berkman JI: *See* Fierer JA, Klavins JV, Weiss M, Mesa-Tejada R, Berkman JI, Rollwagen F 11a
Bernstein LH, Horenstein JM, Russell PJ: Levels of urinary adenylate kinase activity in renal allograft crisis and urinary infection (February) 5a
Bhamarapravati N: *See* Boonpucknavig V, Boonpucknavig S, Bhamarapravati N 89
Bignami A, Dahl D: Glial fibrillary acidic protein from normal human brain (February) 70a
Binford CH, Walsh GP, Theocheung JL: Transmission of *M leprae* in immunosuppressed mice (February) 45a
Bishop SP: *See* Webster WS, Bishop SP, Greer JC 37a
Blackburn WR: *See* Kelly JS, Weir G, Lopata MA, Blackburn WR 32a
Blackburn WR: *See* Trapukdi S, Travers H, Kelly JS, Blackburn WR 93a
Blanc W: *See* Naeye RL, Blanc W 85a
Bloom BR: *See* Wisniewski HM, Bloom BR 75a
Bloor CM, White FC: Effects of coronary artery reperfusion on myocardial infarct size (February) 42a
Bluestone R: *See* Waisman J, Bluestone R, Klinenberg JR 3a
Bohorquez F: *See* Stout C, Lemmon WB, Bohorquez F, Gantz C 55a

Bolande RP, Towler WF: The terminal autonomic nervous system in cystic fibrosis (February) 64a
Boonpucknavig S: *See* Boonpucknavig V, Bhamarapravati N, Boonpucknavig S 89
Boonpucknavig V, Boonpucknavig S, Bhamarapravati N: *Plasmodium berghei* infection in mice (January) 89
Bouchardy B: *See* Majno G, Bouchardy B, Joliat G 82a
Bounce IH: *See* Donald KJ, Whitaker AN, Bounce IH 245
Bove KE: Morphologic studies in thanatophoric dwarfism (February) 17a
Bradford WD: *See* Gipson T, Bradford WD 23a
Bradford WD: *See* Graham R, Daniels C, Bradford WD, Kinney TD 13a
Bradford WD: *See* Hollingsworth AS, Bradford WD, Wilson JW, Klintworth GK 43a
Bradford WD, Noce P, Otteson E, Gutman L: Acute enteric disease in humans due to *Yersinia enterocolitica* (February) 45a
Braunwald E: *See* Sybers HD, Maroko PR, Asraf M, Libby P, Brunwald E 401
Brettschneider L: *See* Hoffmann E, Holper K, Brettschneider L, Di Luzio NR, Trejo R 57a
Brody AR, Craighead JE: Pathogenesis of pulmonary lesions in experimental murine cytomegalovirus infection (February) 46a
Broome J: *See* Kuhns WJ, Broome J 51a
Brown WJ: *See* Verity MA, Brown WJ 82a
Brunson JG: *See* Lockard Virginia G, Grogan JB, Brunson JG 57
Brunson JG: *See* Maples M, Lockard Virginia G, Brunson JG 33a
Butler JJ: *See* Mackay B, Butler JJ, Masse S 7a
Cabral Linda J: *See* Evans MJ, Stephens RJ, Freeman G, Cabral Linda J 175
Cabral Linda J: *See* Evans MJ, Stephens RJ, Freeman G, Cabral Linda J 199
Caplan BA: *See* Schwartz CJ, Caplan BA 55a
Carpenter S, Watters G, Eisen A, Usher R: Demyelinative neuropathy in a newborn infant (February) 77a
Casey AE, Niedermeier W, Hall L, Gravlee JF, Downey Eleanor L, Long Barbara: Cigarette smoking, serum copper and potassium in Irish dairymen (February) 85a
Casey D: *See* Clasen RA, Pandolfi S, Casey D 78a
Catherman N: *See* Valdes-Dapena Marie, Greene Marguerite W, Basavanad N, Catherman R 27a
Caulfield JB: Effect of hypertonic solutions on hypoxic myocardium (February) 37a
Cavallo T, Sade R, Folkman J, Cotran RS: Ultrastructural autoradiographic studies of the early vasoproliferative responses in tumor angiogenesis (March) 345
de Champlain Marie-Laure: *See* Sharma HJ, Rosensweig J, Chatterjee S, Moore S, de Champlain Marie-Laure 155
Chatterjee S: *See* Sharma HJ, Rosensweig J, Moore S, de Champlain Marie-Laure, Chatterjee S 155
Chen SH: Thermal and high resolution NMR studies of nonsonicated lipids and biomembranes (February) 14a
Chen YH, Shanklin DR, Esterly JR: Tracheobronchomalacia (February) 21a
Chesney CF, Allen JR: ANIMAL MODEL OF HUMAN DISEASE: Cardiopulmonary disease (March) 489
Chiga M: *See* Cuppage Francis E, Tate A, Chiga M 119
Christian WD: *See* Gupta RJ, Schuster R, Christian WD 439
Churg J: *See* Suzuki Y, Kannerstein M, Churg J 7a
Clasen RA, Pandolfi S, Casey D: Furosemide in cold-induced cerebral edema in the monkey (February) 78a
Clawson CC: Platelet interaction with bacteria (March) 449
Coen R: *See* McAdams AJ, Coen R, Kleinman LI, Tsang R, Sutherland J 277
Cohen S: *See* Flanagan TD, Yoshida T, Cohen S 47a

CONTENTS FOR VOLUME 71, 1973

April

1 Contractile Proteins of Endothelial Cells, Platelets and Smooth Muscle
Carl G. Becker and Ralph L. Nachman

23 The Pancreatic Islets in Chondrosarcoma: A Qualitative and Quantitative Study in Humans
Luna Ghosh, Andrew Huvos and Valerie Miké

33 Prognostic Factors in Cutaneous Melanoma of the Head and Neck
Andrew G. Huvos, Valerie Miké, Michael J. Donnellan, Thomas Seemayer and Elliot W. Strong

49 Ultrastructural Changes of Coronary Artery Endothelium Associated with Biliary Obstruction in the Rat
W. H. Gutstein and F. Parl

61 *In Vitro* Characteristics of Human Glioblastomas Maintained in Organ Culture Systems: Light Microscopy Observations
Lucien J. Rubinstein, Mary M. Herman and Virginia L. Foley

81 Adenovirus-Like Transformation of Hamster Embryo Cells Mediated by Simian Virus 40
George Th. Diamandopoulos and Suzanne Sanborn-Redmond

93 Mesothelial Injury and Recovery
Graeme B. Ryan, Jocelyne Grobéty and Guido Majno

113 The Effect of Thorotrast® and Cortisone on Renal Cortical Fibrinolytic Activity in the Rabbit
Jerry M. Bergstein and Alfred F. Michael Jr

119 Graft-Versus-Host Reactions in Mice. III. Epitheliod and Multinucleated Giant Cells of Thymic Origin
Michael Bennett and Mario Montes

135 Graft-Versus-Host Reactions in Mice. IV. Thymus Cell Suppression of Antibody Formation
Michael Bennett, Michael Sturgeon and J. Peter Engler

151 **Animal Model of Human Disease:** G_{M2}-Gangliosidoses (Amaurotic Idiocies) Types I, II and III
E. Karbe

1a Interim Meeting of The Pediatric Pathology Club, First Panamerican Reunion of Pediatric Pathology: Scientific Proceedings, 1973

May

155 Vascular Permeability of the Renal Medullary Vessels in the Mouse and Rat
Tetsuo Shimamura and Ashton B. Morrison

167 Experimental Calcification of the Myocardium: Ultrastructural and Histochemical Investigations
Ermanno Bonucci and Raffaele Sadun

193 *Schistosoma mansoni* Infection in Mice Depleted of Thymus-Dependent Lymphocytes. I. Eosinophilia and Immunologic Responses to a Schistosomal Egg Preparation
Douglas P. Fine, Richard D. Buchanan and Daniel G. Colley

207 *Schistosoma mansoni* Infection in Mice Depleted of Thymus-Dependent Lymphocytes. II. Pathology and Altered Pathogenesis
Richard D. Buchanan, Douglas P. Fine and Daniel G. Colley

219 *In Vivo* Behavior of Fibrinogen Fragment D in Experimental Renal, Hepatic and Reticuloendothelial Dysfunction
Ormille A. Hayne and Laurence A. Sherman

239 Intracellular Distribution of Antibody in Immunocytes Responding to Primary Challenge with Horseradish Peroxidase
H. R. P. Miller, S. Avrameas and Thérèse Ternynck
261 Intracellular Distribution of Antibody in Immunocytes Responding to Secondary Challenge with Horseradish Peroxidase
H. R. P. Miller, S. Avrameas and Thérèse Ternynck
279 Utrastructural Study of Two Gonadotrophs in Rats Bearing an Adrenocortical Carcinoma (Snell 494)
Iwao Nakayama and Peter A. Nickerson
295 Changes in Kidney Medullary Phospholipid Metabolism in the Potassium-Deficient Rat: Part I
H. Wilson, B. Spargo and G. S. Getz
315 Changes in Kidney Medullary Phospholipid Metabolism in the Potassium-Depleted Rat: Part II
H. Wilson, B. Spargo and G. S. Getz
331 The Pathogenesis of Aleutian Disease of Mink. III. Immune Complex Arteritis
David D. Porter, Austen E. Larsen and Helen G. Porter
345 **Animal Model of Human Disease:** Persistent Viral Infections, Immunologically Mediated Glomerulonephritis and Arteritis, Dysgammopathies
James B. Henson and John R. Gorham

June

349 Immunologic Events in Experimental Hypersensitivity Granulomas
Emil R. Unanue and Baruj Benacerraf
365 An Experimental Model of Pulmonary Arterial Granulomatous Inflammation
Earl J. Kasdon and Stuart F. Schlossman
375 Pulmonary Lesions in Rats Exposed to Ozone: A Correlated Light and Electron Microscopic Study
C. G. Plopper, D. L. Dungworth and W. S. Tyler
395 Morphometric Evaluation of Pulmonary Lesions in Rats Exposed to Ozone
C. G. Plopper, D. L. Dungworth and W. S. Tyler
409 Nonhepatic Thioacetamide Injury. I. Thymic Cortical Necrosis
Edward A. Barker and Edward A. Smuckler
419 Glial Tissue in the Uterus
Lennart Zettergren
427 Immunohistochemical Study of Glomerular Lesions in Retroperitoneal Lymphomas
Raj K. Gupta
437 Absence of Ultrastructural Changes in the Basement Membrane of Muscle Capillaries in Streptozotocin-Induced Carbohydrate Intolerance in Rhesus Monkeys
Hernando Salazar, Ronald A. Chez and Matias Pardo
447 Ultrastructural Findings in Storage Pool Disease and Aspirin-Like Defects of Platelets
Harvey J. Weiss and Richard P. Ames
467 Granule Assembly in Precursors of Human Leukemia Granulocytes
H. I. Zeya and John Laszlo
477 **Animal Model of Human Disease:** Congenital Hemolytic Anemia
Sheilah M. Fletch and P. H. Pinkerton

SUBJECT

AUTHOR

CONTENTS FOR VOLUME 71

Index of Subjects

Volume 71, 1973

Actomyosin
of endothelial cells, platelets and smooth muscle, 1
Adenosine diphosphate
and storage pool disease in platelets, 447
Adenosine triphosphatase
in actomyosin preparations, 1
Adenovirus-like transformation
of cells mediated by simian virus 40, 81
Adrenocortical carcinoma
two gonadotrophs in, 279
Aleutian disease of mink
pathogenesis of, 331
Amaurotic familial idiocy
ANIMAL MODEL OF HUMAN DISEASE, 151
Amnion nodosum
pathogenesis of, 15a
Anemia
congenital hemolytic, ANIMAL MODEL OF HUMAN DISEASE, 477
Animal Model of Human Disease
congenital hemolytic anemia, 477
G_{M2}-gangliosidoses, 151
viral infections, glomerulonephritis and arteritis, and dysgammopathies, 345
Antibodies
distribution in antiperoxidase antibody-forming cells
after primary challenge, 239
after secondary challenge, 261
thymus cell suppression of formation of, in graft-versus-host reaction, 135
Arteritis
immune complex, and Aleutian disease of mink, 331
immunologically mediated, ANIMAL MODEL OF HUMAN DISEASE, 345
Aspirin-like defects
of platelets in storage pool disease, 447
Australia antigen
autopsy survey for, in pediatric hospital, 1a
Basement membrane
of muscle capillaries, in experimental carbohydrate intolerance, 437
Biliary tract
atresia of, and cytomegalovirus infection, 2a
obstruction of, and coronary artery endothelium ultrastructure, 49
Blood vessels (*see vascular conditions*)
Calcification
of myocardium, experimental, 167
Capillaries
basement membrane of, in experimental carbohydrate intolerance, 437
Carbohydrate intolerance
experimental, and basement membrane of muscle capillaries, 437
Chondrosarcoma
pancreatic islets in, 23
Congenital malformations
in DiGeorge syndrome, 6a
Contractile proteins
of endothelial cells, platelets and smooth muscle, 1
Coronary artery endothelium
ultrastructure of, in biliary obstruction, 49
Cortisone
affecting renal cortical fibrinolytic activity, 113
Cultures
organ, glioblastomas in, 61
Cytomegalovirus infection
and biliary atresia, 2a
and macroglobulinemia, monoclonal, 8a
and toxoplasmosis in newborn, 2a
DiGeorge syndrome
congenital malformations with, 6a
Di Guglielmo syndrome
infantile, and IgG deficiency, 9a
Down's syndrome
phagocytosis in, 10a
Dysgammopathies
ANIMAL MODEL OF HUMAN DISEASE, 345
Electron microscopy
of amnion nodosum pathogenesis, 15a
of capillary basement membrane in experimental carbohydrate intolerance, 437
of coronary artery endothelium, in biliary obstruction, 49

of gonadotrophs in tumor-bearing rats, 279
of mesothelial regeneration, 96
of myocardial calcification, 167
of platelets in storage pool disease, 447
of respiratory tissue, fetal and neonatal, 13a

Encephalitis
Toxoplasma gondii, with Hodgkin's disease, 6a

Endothelial cells
contractile proteins of, 1
coronary artery, ultrastructure of, in biliary obstruction, 49

Enterocolitis
neonatal necrotizing, healing of lesions in, 2a

Enzymes
granule, in leukemic myeloblasts, 467

Eosinophilia
in schistosomiasis in mice depleted of thymus-dependent lymphocytes, 193

Epithelioid cells
thymic origin of, in graft-versus-host reaction, 119

Fetus
growth failure in placental insufficiency, 12a
heart failure in, 14a
immunoglobulin production in, 10a

Fibrinogen
fragment D catabolism in experimental disorders, 219

Fibrinolysis
mesothelial, after injury and recovery, 93
renal cortical, Thorotrast® and cortisone affecting, 113

Funisitis
lymphoplasmacytic, 13a

Gangliosidoses
ANIMAL MODEL OF HUMAN DISEASE, 151

Gastrointestinal tract
healing of lesions in neonatal necrotizing enterocolitis, 2a
polyps with malacoplakia and histoplasmosis, 1a

Giant cells
multinucleated, thymic origin of, in graft-versus-host reaction, 119

Glial tissue
in uterus, 419

Glioblastoma
in organ culture systems, 61

Glomerular lesions
in retroperitoneal lymphomas, 427

Glomerulonephritis
immunologically mediated, ANIMAL MODEL OF HUMAN DISEASE, 345

Gonadotrophs
in tumor-bearing rats, ultrastructure of, 279

Graft-versus-host reactions
and epithelioid and multinucleated giant cells of thymic origin, 119
and thymus cell suppression of antibody formation, 135

Granule enzymes
in leukemic myeloblasts, 467

Granulocyte precursors
leukemic, granule enzymes in, 467

Granulomas
hypersensitivity, immunologic events in, 349
pulmonary arterial, experimental model of, 365

Growth failure
fetal, and placental insufficiency, 12a

Head
cutaneous melanoma of, prognostic factors in, 33

Heart failure
in fetus and newborn, 14a

Hematoma
and thrombosis, subchorionic, 14a

Hemolytic anemia
congenital, ANIMAL MODEL OF HUMAN DISEASE, 477

Histiocytosis
generalized, with congenital rubella and immunodeficiency, 9a

Histoplasmosis
with malacoplakia and gastrointestinal polyps, 1a

Hodgkin's disease
and *Toxoplasma gondii* encephalitis, 6a

Hypersensitivity granulomas
immunologic events in, 349

Idiocy
amaurotic familial, ANIMAL MODEL OF HUMAN DISEASE, 151

Immune complex arteritis
and Aleutian disease of mink, 331

Immunity
cell-mediated, in hypersensitivity granulomas, 349

Immunocytes
antibody distribution in, after horseradish peroxidase challenges, 239, 261

Immunodeficiency
with congenital rubella and generalized histiocytosis, 9a
with Di Guglielmo syndrome in infancy, 9a
with malignant neoplasia, 7a

Immunoglobulins
production in fetus and infant, 10a

Immunologically mediated glomerulonephritis and arteritis
ANIMAL MODEL OF HUMAN DISEASE, 345

Immunoperoxidase studies
of antibody-forming cells
after primary challenge, 239
after secondary challenge, 261

Kidney
cortical fibrinolysis in, Thorotrast and cortisone affecting, 113
fibrinogen fragment D catabolism in disorders of, 219
glomerular lesions in retroperitoneal lymphomas, 427
medullary phospholipid metabolism in potassium deficiency, 295, 315
permeability of medullary vessels, 155

Leukemia
fatal measles infections in, 5a
and granule enzymes in myeloblasts, 467

Liver
fibrinogen fragment D catabolism in disorders of, 219
histologic changes in typhoid fever, 3a

Lungs
ozone-induced lesions in, 395
morphometric evaluation of, 395

Lymphocytes
thymus-dependent, depletion in mice, and schistosomiasis, 193, 207

Lymphoid tissue
morphology in bacterial shock, 4a

Lymphomas
retroperitoneal, glomerular lesions in, 427

Lymphoplasmacytic funisitis, 13a

Macroglobulinemia
monoclonal, and cytomegalic inclusion disease, 8a

Malacoplakia
with histoplasmosis and gastrointestinal polyps, 1a

Malnutrition
infections with, thymus in, 7a

Measles
fatal, in leukemia, 5a

Melanoma
cutaneous, of head and neck, prognostic factors in, 33

Mesothelium
injury and recovery in, 93

Muscle
capillary basement membrane of, in experimental carbohydrate intolerance, 437
nuclei distribution in skeletal muscle fibers, 11a
smooth, contractile proteins of, 1

Myeloblasts
leukemia, granule enzymes in, 467

Myocardium
calcification of, experimental, 167

Naegleria
meningoencephalitis from, 8a

Neck
cutaneous melanoma of, prognostic factors in, 33

Nervous system, central
meningoencephalitis from *Naegleria*, 8a
toxoplasmosis of, in Hodgkin's disease, 6a

Nevi
giant pigmented, placental involvement in, 14a

Newborn
heart failure in, 14a
respiratory tissue of, electron microscopy of, 13a
thrombosis of atrioventricular valves in, 12a

Nuclei distribution
in skeletal muscle fibers, 11a

Nutritional deficiency
infections with, thymus in, 7a

Organ cultures
glioblastomas in, 61
Ozone
pulmonary lesions from, 375
morphometric evaluation of, 395
Pancreatic islets
in chondrosarcoma, 23
Permeability
of renal medullary vessels, 155
Phagocytosis
in Down's syndrome, 10a
Phospholipid
metabolism in renal medulla, in potassium deficiency, 295, 315
Placenta
insufficiency of, and fetal growth failure, 12a
involvement in giant pigmented nevi, 14a
Platelets
contractile proteins of, 1
in storage pool disease, ultrastructure of, 447
Pneumocystis carinii **pneumonitis**
pathogenesis and host susceptibility in, 4a
Polyps
gastrointestinal, with malacoplakia and histoplasmosis, 1a
Potassium deficiency
kidney medullary phospholipid metabolism in, 295, 315
Prognostic factors
in cutaneous melanoma of head and neck, 33
Proteins
contractile, of endothelial cells, platelets and smooth muscle, 1
Pulmonary arterial granuloma
experimental model of, 365
Pulmonary lesions
from ozone, 375
morphometric evaluation of, 395
Regeneration
mesothelial, 96
Respiratory tissue
fetal and neonatal, electron microscopy of, 13a
Reticuloendothelial disorders
fibrinogen fragment D catabolism in, 219
Reticulosis
hemophagocytic, familial, 9a
Retroperitoneal lymphomas
glomerular lesions in, 427
Rubella
congenital, with immunodeficiency and generalized histiocytosis, 9a
Schistosomiasis
in mice depleted of thymus-dependent lymphocytes
eosinophilia and immunologic responses to, 193
pathology and altered pathogenesis in, 207
Shock
bacterial, lymphoid tissue morphology in, 4a
Simian virus 40
oncogenic effect of, 81
Snell 494 tumor
two gonadotrophs in, 279
Streptozotocin-induced carbohydrate intolerance
capillary basement membrane in, 437
Thioacetamide
thymic cortical necrosis from, 409
Thorotrast
affecting renal cortical fibrinolytic activity, 113
Thrombohematoma
subchorionic, 14a
Thrombosis
of atrioventricular valves, in newborn, 12a
Thrombosthenin, 1
Thymus
cells suppressing antibody formation, 135
cortical necrosis from thioacetamide, 409
in malnutrition-infection complex, 7a
as origin of epithelioid and multinucleated giant cells, in graft-versus-host reaction, 119
Toxoplasmosis
and cytomegalovirus infection in newborn, 2a
and encephalitis with Hodgkin's disease, 6a
Tumors
chondrosarcoma, pancreatic islets in, 23
glioblastoma in organ cultures, 61
gonadotrophs in tumor-bearing rats, 279
melanomas of head and neck, prognostic factors in, 33

oncogenic effect of simian virus 40, 81
retroperitoneal lymphomas with glomerular lesions, 427
and serum IgA deficiency, 7a

Typhoid fever
hepatic histologic changes in, 3a

Umbilical cord inflammation
lymphoplasmacytic, 13a

Uterus
glial tissue in, 419

Valves
cardiac, thrombosis in newborn, 12a

Vascular conditions
capillary basement membrane in experimental carbohydrate intolerance, 437
coronary artery endothelium in biliary obstruction, 49
experimental pulmonary arterial granulomatous inflammation, 365
permeability of renal medullary vessels, 155

Ventilation
onset of, and electron microscopic studies, 13a

Virus studies
in cytomegalic inclusion disease (*see cytomegalovirus infection*)
oncogenic effects of simian virus 40, 81
persistent infections, ANIMAL MODEL OF HUMAN DISEASE 345

Index of Authors

Volume 71, 1973

Ambrosius Diener K, Gómez Mancilla E: The morphology of lymphoid tissue in bacterial toxic shock (April) 4a
Ames RP: *See* Weiss HJ, Ames RP 447
Avrameas S: *See* Miller HRP, Avrameas S, Terynck Thérèse 239

OF PATHOLOGISTS AND BACTERIOLOGISTS

The American Journal of PATHOLOGY

CONTENTS FOR VOLUME 72, 1973

July

1 Interaction of Angiotensin with Disseminated Intravascular Coagulation: A Possible Mechanism in the Genesis of Acute Renal Failure
Alan N. Whitaker, Ian Bunce, Peter Nicoll and Susanne V. Dowling

13 A Comparison of the Tissue Lesions Produced in Adult Hamsters by Two Strains of Avirulent Venezuelan Equine Encephalomyelitis Virus
Garrett S. Dill Jr, Carl E. Pederson and James L. Stookey

25 Histopathology and Distribution of Viral Antigens in Hamsters Infected with Virulent and Benign Venezuelan Encephalitis Viruses
P. B. Jahrling and W. F. Scherer

39 Immune Response to Sheep Red Cells in AKR Mouse Leukemia
M. D. Ram, R. R. Kohn and D. Novak

53 Prevention of Galactosamine-Induced Liver Cell Necrosis by Uridine
John L. Farber, Gretchen Gill and Yoichi Konishi

63 Experimental *Mycoplasma pulmonis* Infection in Pathogen-Free Mice: Models for Studying Mycoplasmosis of the Respiratory Tract
J. Russell Lindsey and Gail H. Cassell

91 Ultrastructural Changes in Hamster Tracheal Ring Cultures Exposed to *Mycoplasma pneumoniae*
K. H. Woodruff, Edward Schneider, Leon Unger and J. J. Coalson

103 Changes in the Rat Placenta Following Inoculation with *Salmonella dublin*
G. A. Hall

119 Histochemical Characteristics of Parafollicular Cells and Medullary Thyroid Carcinoma
Ronald A. DeLellis and Karoly Balogh

129 On the Virulence of Group A Streptococci: Evidence for Virulence Factors Other than M-Protein and Capsule
Carl G. Becker, Gene D. Resnick and Sandra Shustak

137 **Animal Model of Human Disease:** Primary Hepatocellular Carcinoma
P. M. Newberne and A. E. Rogers

August

141 Radiation Nephritis. III. Chemical, Functional and Morphologic Correlates of the Glomerular Basement Membrane
N. F. Gang, M. E. Sarophim, A Madrazo and J. Churg

149 Comparative Histopathology of Schistosome Granulomas in the Hamster
F. von Lichtenberg, D. G. Erickson and E. H. Sadun

179 Heterophile Antibodies and Tissue Injury. III. A Role for Platelets in the Development of Lethal Vascular Injury During Forssman Shock in Guinea Pigs
Chi-Cheng Tsai, Norton S. Taichman, Wayne H. Pulver and Eduard Schönbaum

201 Separation of Spleen Colony Forming Units (CFU-S) from Mouse Bone Marrow Cells Using Velocity Sedimentation in an Isokinetic Gradient of Ficoll in Tissue Culture Medium
Thomas G. Pretlow II, Edwin E. Williams, Maxie L. Davis and Judy G. Zettergren

221 The Cellular Pathology of Experimental Hypertension. VII. Structure and Permeability of the Mesenteric Vasculature in Angiotensin-Induced Hypertension
Joseph Wiener and Filiberto Giacomelli

241 Glycogen Distribution in Rat Blood Platelets
Richard B. Davis

253 Isoantigens A, B and H in Benign and Malignant Lesions of Breast
Raj K. Gupta and Rudy Schuster

PRESIDENT'S SYMPOSIUM ON IRON OVERLOAD

262 Introduction
Thomas D. Kinney

263 Metabolic and Chemical Features of Ferritins, a Series of Iron-Inducible Tissue Proteins
M. C. Linder and H. N. Munro

283 Immunologic Properties of Ferritin
Goetz W. Richter

295 The Relationship of Intracellular Pathways of Iron Metabolism to Cellular Iron Overload and the Iron Storage Diseases: Cell Sap and Cytocavitary Network Pathways in Relation to Lysosomal Storage and Turnover of Iron Macromolecules
B. F. Trump, J. M. Valigorsky, A. U. Arstila, W. J. Mergner and T. D. Kinney

337 Iron Kinetics with Emphasis on Iron Overload
James D. Cook, William E. Barry, Chaim Hershko, George Fillet and Clement A. Finch

345 **Animal Model of Human Disease:** Liver Cell Carcinoma, Hepatocellular Carcinoma, Hepatoma
Laurence M. Ashley

September

349 Structure and Development of the Glomerular Crescent
Takashi Morita, Yasunosuke Suzuki and Jacob Churg

369 Electron Microscopy of Cat Spinal Cord Subject to Circulatory Arrest and Deep Local Hypothermia (15 C)
Jonathan Shay and Nicholas K. Gonatas

397 Morphometry of an Ischemic Lesion of Cat Spinal Cord
Jonathan Shay

403 Smooth Muscle Regeneration in the Ureter: Electron Microscopic and Autoradiographic Observations
Mark D. Kiviat, Russell Ross and Julian S. Ansell

417 Separation of Lipase-Positive Cells from Suspensions of Pancreas Cells in an Isokinetic Gradient of Ficoll in Tissue Culture Medium
John Blackmon, Annette Pitts and Thomas G. Pretlow II

427 Bilirubin as a Cholestatic Agent. II. Effect of Variable Doses of Bilirubin on the Severity of Manganese-Bilirubin Cholestasis
W. Boyce and C. L. Witzleben

433 The Ultrastructure of the Adrenal Zona Glomerulosa of Rats on Potassium-Supplemented or Sodium-Depleted Diets
Douglass T. Domoto, John E. Boyd, Patrick J. Mulrow and Michael Kashgarian

447 Amyloid Nephropathy of Ostertag with Special Reference to Renal Glomerular Giant Cells
Sharon Whelan Weiss and David L. Page

461 Adrenal Corticosteroid-Induced Renal Cystic Disease in the Newborn Hamster
R. B. Filmer, F. A. Carone, R. G. Rowland and J. R. Babcock

473 Human Smooth Muscle Autoantibody: Its Identification as Antiactin Antibody and a Study of Its Binding to "Nonmuscular" Cells
Giulio Gabbiani, Graeme B. Ryan, Jean-Pierre Lamelin, Pierre Vassalli, Guido Majno, Claude A. Bouvier, André Cruchaud and Ernst F. Lüscher

489 Immune Responses of the Protein-Deficient Guinea Pig to BCG Vaccination
U. N. Bhuyan and V. Ramalingaswami

503 The Chediak-Higashi Syndrome: Fine Structure of Giant Inclusions in Freeze-Fractured Neutrophils
James G. White

521 Studies on Cellular Autophagocytosis: Cyclic AMP- and Dibutyrl Cyclic AMP-Stimulated Autophagy in Rat Liver
J. D. Shelburne, A. U. Arstila and B. F. Trump

541 **Animal Model of Human Disease:** Adenocarcinoma of the Colon
P. M. Newberne and A. E. Rogers

AUTHOR

CONTENTS FOR VOLUME 72

Index of Subjects

Volume 72, 1973

ACTH
affecting mitochondria of zona glomerulosa, 440
Actin
antibody to, 473
Adenocarcinoma
of colon, experimental, ANIMAL MODEL OF HUMAN DISEASE, 541
Adenosine monophosphate, cyclic
and cellular autophagocytosis, 521
Adrenal glands
corticosteroid-induced renal cystic disease, 461
ultrastructure of zona glomerulosa, 433
Aldosterone
secretion of, and zona glomerulosa function, 433
Amyloid nephropathy, 447
Angiotensin
hypertension from, mesenteric vasculature in, 221
interaction with disseminated intravascular coagulation, 1
Animal Models of Human Disease
adenocarcinoma of colon, 541
hepatocellular carcinoma, 137, 345
Antibodies
heterophile, and tissue injury, 179
Apoferritin
structure of, 297
Aspirin
and Forssman shock development, 190, 192
Astrocytes
in spinal cord lesions, 377, 397
Autoantibodies
smooth muscle, 473
Autophagocytosis, 521
Autoradiography
of ureteral regeneration, 403
Basement membrane
glomerular, radiation affecting, 141
BCG vaccination
immune response to, in protein deficiency, 489
Bilirubin
as cholestatic agent, 427
BL-R743
and Forssman shock development, 190, 192
Blood vessels (*see vasculature*)
Bone marrow (*see marrow*)
Brain
affected by Venezuelan encephalitis virus, 16, 28, 30
Breast lesions
isoantigens in, 253
Brunner's glands
affected by Venezuelan encephalitis virus, 31
Calcium levels
in renal cystic disease, 465
Carcinoma (*see tumors*)
Cell sap
ferritin in, 308
Chediak-Higashi syndrome, 503
Cholestasis
bilirubin affecting, 427
Circulatory arrest
spinal cord lesions in, 369
Coagulation
disseminated intravascular, angiotensin interaction with, 1
Colon
adenocarcinoma of, experimental, 541
Complement
in Forssman shock, 187, 193
Corticosteroids
inducing renal cystic disease, 461
Creatinine levels
angiotensin and thrombin infusions affecting, 3
Crescents
in renal glomeruli, 349
Cystic disease
renal, corticosteroid-induced, 461
Cytosegresomes
in hepatocytes, glucagon affecting, 524
Electron microscopy
of adrenal zona glomerulosa, 433
of amyloid deposits in kidney, 451
of apoferritin, 297
of cellular autophagy, 524
of ferritin, 297
of glomerular crescents, 352
of hemosiderin, 298
of mesenteric vasculature in angiotensin-induced hypertension, 224
of platelet glycogen, 241
of pulmonary vasculature in Forssman shock, 190
of renal giant cells, 451
of spinal cord lesions, 369, 397
of tracheal ring epithelial cells exposed to *M pneumoniae*, 91

of tubules in renal cystic disease, 463
of ureteral regeneration, 403
Encephalitis virus, Venezuelan
antigenic subtypes of, 25
avirulent, two strains of, 13
Erythrocyte precursors
ferritin in, 312
Exocrine cells
pancreatic, purification of, 417
Ferritin
electron microscopy of, 297
immunologic properties of, 283
metabolic and chemical features of, 263
Fibrinogen levels
angiotensin and thrombin infusions affecting, 3
9-Fluoroprednisolone acetate
inducing renal cystic disease, 461
Forssman shock
platelets in, 179
Freeze-fractured neutrophils
in Chediak-Higashi syndrome, 503
Galactosamine
liver cell necrosis from, uridine preventing, 53
Giant cells
renal glomerular, 447
Giant inclusions
in leukocytes in Chediak-Higashi syndrome, 503
Glomeruli, renal
crescents in, 349
giant cells of, 447
radiation affecting basement membrane of, 141
Glucagon-stimulated autophagy, 521
Glycogen
in platelets, 241
Granulomas
schistosome, 149
Heart
affected by Venezuelan encephalitis virus, 29
isoferritins in, 274
HeLa cells
ferritin in, 313
Hematopoietic cells
ferritin in, 312
Hematopoietic tissue
affected by Venezueland encephalitis virus, 14, 28, 30
Hemochromatosis
iron kinetics in, 341
iron metabolism pathway in, 319
Hemosiderin
electron microscopy of, 298
Hepatocellular carcinoma
ANIMAL MODELS OF HUMAN DISEASE, 137, 345
Hyaluronic acid content
and virulence of group A streptococci, 129
Hypertension
angiotensin-induced, mesenteric vasculature in, 221
Hypothermia
spinal cord lesions from, 369
Immune response
to BCG vaccination, in protein deficiency, 489
to sheep red cells in AKR mouse leukemia, 39
Immunology
and ferritin properties, 283
heterophile antibodies and tissue injury, 179
and host responses to schistosomes, 160, 162
isoantigens in breast lesions, 253
smooth muscle autoantibodies, 473
Inclusions
giant, in leukocytes in Chediak-Higashi syndrome, 503
Intestinal wall
affected by Venezuelan encephalitis virus, 29, 31
smooth muscle autoantibody binding in, 479
Intestines
adenocarcinoma of, experimental, 541
ferritin in epithelial cells of, 314
Iron overload (*see also ferritin*)
iron kinetics in, 337
and iron toxicity, 316
liver in, 306
and metabolism of iron, 295
symposium on, 261
Ischemia
spinal cord lesions in, 369, 397
Isoantigens
in breast lesions, 253
Kidney
affected by Venezuelan encephalitis virus, 29
amyloid nephropathy of, 447
and angiotensin interaction with disseminated intravascular coagulation, 1
corticosteroid-induced cystic disease of, 461
ferritin in, 315
glomerular crescent development in, 349

radiation nephritis of, 141
smooth muscle autoantibody binding in, 478, 482
Leukemia
in AKR mice, and immune response to sheep red cells, 39
Leukocytes
polymorphonuclear, in Chediak-Higashi syndrome, 503
Lipase-positive cells
pancreatic, separation of, 417
Liver
affected by Venezuelan encephalitis virus, 29
cell necrosis from galactosamine, uridine preventing, 53
cellular autophagy in, 521
cholestasis in, bilirubin affecting, 427
ferritin metabolism in, 264
hepatocellular carcinoma, ANIMAL MODELS OF HUMAN DISEASE, 137, 345
iron loading affecting, 306
schistosome granulomas of, 149
smooth muscle autoantibody binding in, 478, 481
Lungs
in Forssman shock, 179
mycoplasma infections of, experimental, 63
Lymphoid tissue
affected by Venezuelan encephalitis virus, 14
in protein deficiency, after BCG vaccination, 493
smooth muscle autoantibody binding in, 479, 482
Lysosomes
in Chediak-Higashi syndrome neutrophils, 506
iron localization in, 306, 308
M-protein
and virulence if group A streptococci, 129
Magnesium levels
in renal cystic disease, 465
Manganese-bilirubin cholestasis
bilirubin affecting, 427
Marrow
affected by Venezuelan encephalitis virus, 29, 31
separation of spleen CFU-S from, 201
Megakaryocytes
smooth muscle autoantibody binding in, 479
Mesenteric vasculature
in angiotensin-induced hypertension, 221
Microfilaments
in nonmuscular cells, 482
Mitochondria
of adrenal zona glomerulosa, 433
of ischemic central nervous tissue, 377, 397
Muscle
autoantibodies of, 473
regeneration in ureter, 403
Mycoplasmosis
of respiratory tract, 63, 91
Nephritis
radiation, 141
Nervous system
affected by Venezuelan encephalitis virus, 16, 28, 30
Neutrophils
in Chediak-Higashi syndrome, 503
Pancreas
affected by Venezuelan encephalitis virus, 31
lipase-positive cells from, separation of, 417
Parafollicular cells
in medullary thyroid carcinoma, 119
Peyer's patch
affected by Venezuelan encephalitis virus, 29, 31
Placenta
Salmonella infection of, 103
Platelets
angiotensin and thrombin infusions affecting, 3
in Forssman shock, 179
glycogen in, 241
incubation of SMA serum with, 473
Pneumonia
from mycoplasmas, experimental, 63
Podocytes
in glomerular crescent formation, 353, 356
Potassium
levels in renal cystic disease, 465
loading of, adrenal zona glomerulosa in, 433
Protein
deficiency of, and immune response to BCG vaccination, 489
ferritins, characteristics of, 263
M-protein affecting virulence of group A streptococci, 129
Radiation nephritis, 141
Regeneration
ureteral, 403
Respiratory tract
mycoplasmosis of, 63, 91

Salmonella **infection**
of placenta, 103
Schistosome granulomas, 149
Shock
Forssman, platelets in, 179
Siderocytes
reticulated, ferritin in, 312
Skin
smooth muscle autoantibody binding in, 478
Sodium
depletion of, adrenal zona glomerulosa in, 433
levels in rental cystic disease, 465
Spinal cord lesions
electron microscopy of, 369, 397
Spleen
affected by Venezuelan encephalitis virus, 29, 31
colony-forming cells separated from marrow, 201
Streptococci
group A, virulence of, 129
Sulfinpyrazone
and Forssman shock development, 187, 192
Symposium, President's
on iron overload, 261
Thrombi
smooth muscle autoantibody binding in, 479
Thrombin
infusions with angiotensin, affecting kidney, 1
Thrombosthenin
incubation of SMA serum in, 473
Thyroid
mediullary carcinoma of, parafollicular cells in, 119
Tracheal ring epithelial cells
Mycoplasma pneumoniae affecting, 91
Tuberculin
responses in protein deficiency, after BCG vaccination, 495
Tumors
adenocarcinoma of colon, experimental, 541
of breast, isoantigens in, 253
ferritins of, 275
hepatocellular carcinoma, ANIMAL MODELS OF HUMAN DISEASE, 137, 345
medullary carcinoma of thyroid, parafollicular cells in, 119
Ureter
smooth muscle regeneration in, 403
Uridine
preventing galactosamine-induced liver cell necrosis, 53
Vasculature
mesenteric, in angiotensin-induced hypertension, 221
pulmonary, in Forssman shock, 179
Virus
Venezuelan encephalitis, 13, 25
Zona glomerulosa
adrenal, ultrastructure of, 433

CONTENTS FOR VOLUME 73, 1973

October

1 Presentation of the Gold Headed Cane to John G. Kidd
Henry D. Moon

7 Thrombogenesis of the Rabbit Arterial Plaque: An Electron Microscopic Study
Michael B. Stemerman

27 Acute Leukemic Cells: Qualitative and Quantitative Electron Microscopy
H. R. Schumacher, I. E. Szekely, S. A. Park, U. N. M. Rao, D. R. Fisher and S. B. Patel

47 The Mikulicz Cell in Rhinoscleroma: Light, Fluorescent and Electron Microscopic Studies
Ernesto O. Hoffmann, Leland D. Loose and James C. Harkin

59 Cultured Skin Fibroblasts in Storage Disorders: An Analysis of Ultrastructural Features
E. Kamensky, M. Philippart, P. Cancilla and S. P. Frommes

81 Significance of Multiple Intercalated Discs in Hypertrophied Human Myocardium
Barry J. Maron and Victor J. Ferrans

97 An Analysis of the Close Relationship of Lysosomes to Early Deposits of Amyloid: Ultrastructural Evidence in Experimental Mouse Amyloidosis
Tsuranobu Shirahama and Alan S. Cohen

115 Experimental Lung Injury. I. Bacterial Pneumonia: Ultrastructural, Autoradiographic and Histochemical Observations
Janet H. Pine, Ward R. Richter and John R. Esterly

131 Radiation-Induced Cardiomyopathy. I. An Electron Microscopic Study of Cardiac Muscle Cells
M. Yusuf Khan

147 Peroxidase Arthritis. III. Sequential Changes in Cellular Composition of the Developing Inflammatory Infiltrate
Richard C. Graham Jr and Sarajayne Limpert Shannon

157 The Pathogenesis of Tetralogy of Fallot
Kevin J. Winn and Grover M. Hutchins

173 Nitroblue Tetrazolium Reduction by Neutrophils in Experimental Hemorrhagic Shock
John W. Hallett Jr and James W. Wilson

183 Effects of Certain Purified Plasma Proteins on the Compatibility of Glass with Blood
R. G. Mason, R. W. Shermer and W. H. Zucker

201 The Collagenous Nature of Amianthoid Degeneration of Human Costal Cartilage
Aubrey J. Hough, Frances C. Mottram and Leon Sokoloff

217 A Hereditary Alteration in Kidneys of Mice with Chediak-Higashi Syndrome
Edward Essner and Constance Oliver

233 A Transplantable Mouse Lymphoma with Unusual Azurophilic Granules
Antonio Coppola

247 Hyperacute Allergic Encephalomyelitis: A Localized Form Produced by Passive Transfer and Pertussis Vaccine
Seymour Levine and Richard Sowinski

261 **Animal Model of Human Disease:** Rheumatoid Arthritis
Leon Sokoloff

November

265 Experimental Induction of Atheroarteriosclerosis by the Synergy of Allergic Injury to Arteries and Lipid-Rich Diet. II. Effect of Repeatedly Injected Foreign Protein in Rabbits Fed a Lipid-Rich, Cholesterol-Poor Diet
C. Richard Minick and George E. Murphy

301 Experimental Induction of Atheroarteriosclerosis by the Synergy of Allergic Injury to Arteries and Lipid-Rich Diet. III. The Role of Earlier Acquired Fibromuscular Intimal Thickening in the Pathogenesis of Later Developing Atherosclerosis
Nicholas J. Hardin, C. Richard Minick and George E. Murphy

327 Light Microscopic and Ultrastructural Study of the Adverse Effects of Oxygen Therapy on the Neonate Lung
W. Robert Anderson, Martha B. Strickland, Shih H. Tsai and John J. Haglin

349 Kinetics of Multinucleate Giant Cell Formation and Their Modification by Various Agents in Foreign Body Reactions
J. M. Papadimitriou, D. Sforsina and L. Papaelias

365 A Combined Scanning and Transmission Electron Microscopic Study of Alveolar Epithelial Development of the Fetal Rabbit Lung
N. S. Wang, H. W. Taeusch Jr, W. M. Thurlbeck and M. E. Avery

377 Fine Structural Alterations of Bovine Peripheral Pulmonary Arteries in Hypoxia-Induced Hypertension
Roger S. Jaenke and Archibald F. Alexander

399 Differential Interference Contrast Microscopy of Human Atherosclerotic Lesions
Henry F. Hoff

411 Histopathology and Pathogenesis of Behaviorally Induced Gastric Lesions in Rats
Donald A. Kristt and Steven J. Freimark

425 Venezuelan Equine Encephalomyelitis in an Adult Animal Host: An Electron Microscopic Study
Leo Gorelkin

443 Collagen-Proteoglycan Relationships in Epiphyseal Cartilage
Reuben Eisenstein, Sven-Erik Larsson, Nino Sorgente and Klaus E. Kuettner

457 The Development of the Pathologic Changes of Alzheimer's Disease and Senile Dementia in Patients with Down's Syndrome
Peter C. Burger and F. Stephen Vogel

477 Pathology of Bolivian Hemorrhagic Fever in the Rhesus Monkey
Timothy G. Terrell, James L. Stookey, Gerald A. Eddy and Michael D. Kastello

495 Protein Synthesis in Pancreatic Beta Cells of the Normal and Diabetic Egyptian Sand Rat (*Psammomys obesus*): An Autoradiographic Study with the Electron Microscope
Ann L. Molleson, Montrose J. Moses and Donald B. Hackel

513 REVIEW ARTICLE: A History of the Autopsy
Lester S. King and Marjorie C. Meehan

545 **Animal Model of Human Disease:** Primary Amebic Meningoencephalitis, *Naegleria* Meningoencephalitis, CNS Protozoal Infection
A. Julio Martinez, E. Clifford Nelson and Richard J. Duma

December

549 The Importance of the Included Serum Proteins in the Immune Response in Rabbits to a Rat Skin Xenograft
Cecil A. Krakower and Seymour A. Greenspon

569 Histochemical Reactivity and Staining Properties of Functionally Defined Cell Types in the Human Adenohypophysis
R. F. Phifer, S. S. Spicer and G. R. Hennigar

589 Electron Microscopic Observations on Human Glioblastomas and Astrocytomas Maintained in Organ Culture Systems
Jack C. Sipe, Mary M. Herman and Lucien J. Rubinstein

607 Quantitative Studies of the Inflammatory Process in Fatal Viral Meningoencephalitis
P. C. Doherty

623 Studies in Rheumatic Fever. VI. Ultrastructure of Chronic Rheumatic Heart Disease
John J. Fenoglio Jr and Bernard M. Wagner

641 Studies on Cellular Autophagocytosis: The Relationship of Autophagocytosis to Protein Synthesis and to Energy Metabolism in Rat Liver and Flounder Kidney Tubules *In Vitro*
J. D. Shelburne, A. U. Arstila and B. F. Trump

671 Human Adenovirus-Induced Medulloepitheliomatous Neoplasms in Sprague-Dawley Rats
Noritsugu Mukai and Shoji Kobayashi

691 The Hamster Cheek Pouch: An Experimental Model of Corneal Vascularization
Gordon K. Klintworth

711 Cytologic Changes in Dog Lungs Induced by Chronic Exposure to Ozone
Robert J. Stephens, Gustave Freeman, Jerry F. Stara and David L. Coffin

727 Lysosomes in Aortic Smooth Muscle Cells: Effects of Hypertension
Harvey Wolinsky, Sidney Goldfischer, Bernice Schiller and Lisa E. Kasak

735 Inhibition by Thyrocalcitonin of Estrogen-Induced Bone Resorption in the Mouse Pubic Symphysis
B. G. Steinetz, J. R. Matthews, M. C. Butler and S. W. Thompson II

747 Response of the Small Intestine to the Application of a Hypertonic Solution
H. Thomas Norris

765 The Resistance of Certain Tissues to Invasion: Penetrability of Explanted Tissues by Vascularized Mesenchyme
Reuben Eisenstein, Nino Sorgente, Lawrence W. Soble, Alexander Miller and Klaus E. Kuettner

775 Studies on Iodine Concentration in Psammoma Bodies in the Thyroids of Chronically Iodine-Deficient Rats: Effect of Iodine Repletion
Monte A. Greer and Patricia Panton

789 Relationship of Phenotypic Expression of Blood Group H to Changes in Growth Kinetics of Cultured Primary and Transformed Epithelioid Cells
William J. Kuhns and Charlotte Pann

807 Nonimmune Chemotaxis *In Vivo:* Inhibition by Complement Depletion with Cobra Factor
Stanley Wiener, Sarai Lendvai, Brad Rogers, Morton Urivetzky and Edward Meilman

817 **Animal Model of Human Disease:** Alcoholic or Nutritional Fatty Liver and Cirrhosis
Adrianne E. Rogers and Paul M. Newberne

SUBJECT

AUTHOR

CONTENTS FOR VOLUME 73

Index of Subjects

Volume 73, 1973

Actinomycin D
and giant cell formation, 355
Adenohypophysis
histochemistry of, 569
Adenovirus
inducing medulloepitheliomatous neoplasms, 671
Albumin
affecting blood-glass compatibility, 183
Allergic encephalomyelitis
hyperacute, 247
Allergic injuries to arteries
and lipid-rich diet, in atherosclerosis induction, 265, 301
Alveolar epithelial development
electron microscopy of, 365
Alzheimer's disease
and Down's syndrome, 457
Amebic meningoencephalitis
ANIMAL MODEL OF HUMAN DISEASE, 545
Amianthoid degeneration
of costal cartilage, 201
Amyloid deposits
early, lysosomes related to, 97
ANIMAL MODELS OF HUMAN DISEASE
amebic meningoencephalitis, 545
arthritis from *Mycoplasma*, 261
fatty liver and cirrhosis, 817
Aortic smooth muscle cells
lysosomes in, in hypertension, 727
Arbovirus encephalitis
cerebral endothelial cells in, 425
Arteries
allergic injury to, and lipid-rich diet, in atherosclerosis induction, 265, 301
thrombogenesis of plaques in rabbits, 7
Arthritis
from *Mycoplasma*, ANIMAL MODEL OF HUMAN DISEASE, 261
peroxidase, 147
Asbestoid fibers
in costal cartilage, 201
Astrocytomas
electron microscopy of, 589
Atherosclerosis
differential interference contrast microscopy of lesions in, 399
experimental induction of, 265, 301
Autophagocytosis
cellular, 641
Autopsies
historical aspects of, 514
Autoradiography
in experimental lung injury, 115
of protein synthesis in pancreatic beta cells, 495
Azurophilic granules
in transplantable mouse lymphoma, 233

Batten's disease
cultured skin fibroblasts in, 59
Behavioral stress
gastric lesions from, 411
Beta cells
pancreatic, protein synthesis in, 495
Blood-glass compatibility
protein preparations affecting, 183
Blood group expression
in cultured epithelioid cells, 789
Bolivian hemorrhagic fever
in monkeys, 477
Bone resorption
in pubic symphysis, thyrocalcitonin affecting, 735
Brain
changes in Down's syndrome, 457
endothelial cells in arbovirus encephalitis, 425

Calcium gluconate
and giant cell formation, 356
Cardiomyopathy
radiation-induced, 131
Carrageenin
and giant cell formation, 357
Cartilage
costal, amianthoid degeneration of, 201
epiphyseal, collagen-proteoglycan relationships in, 443
invasion by vascularized mesenchyme, 765
Cerebral endothelial cells
in arbovirus encephalitis, 425
Cerebrospinal fluid cells
in Semliki Forest virus infection, 607
Ceroid-lipofuscinosis
cultured skin fibroblasts in, 59
Ceruloplasmin
affecting blood-glass compatibility, 183
Chediak-Higashi syndrome
kidneys in, 217

Cheek pouch
hamster, and corneal vascularization studies, 691
Chemotaxis
inhibition by complement depletion with cobra factor, 807
Chondroitin-4-sulfate mucopolysaccharidosis
cultured skin fibroblasts in, 59
Cirrhosis
and fatty liver, ANIMAL MODEL OF HUMAN DISEASE, 817
Collagen
and amianthoid fibers in cartilage, 201
and proteoglycans in epiphyseal cartilage, 443
Cornea
experimental model of vascularization, 691
invasion by vascularized mesenchyme, 765
Cortisone
and giant cell formation, 355
Costal cartilage
amianthoid degeneration of, 201
Culture studies
and epithelioid cell growth kinetics, 789

Dementia
senile, and Down's syndrome, 457
Diabetes
and protein synthesis in pancreatic beta cells, 495
Diarrhea
from hypertonic solutions, 747
Diet
lipid-rich, and arterial injury, in atherosclerosis induction, 265, 301
Differential interference contrast microscopy
of atherosclerotic lesions, 399
Discs
intercalated, in hypertrophied myocardium, 81
Down's syndrome
and Alzheimer's disease or senile dementia, 457

EDTA
and giant cell formation, 356
Electron microscopy
of acute leukemic cells, 27
of adenovirus-induced medulloepitheliomatous neoplasms, 671
of alveolar epithelial development, 365
of amianthoid fibers in cartilage, 201
of aortic smooth muscle cells in hypertension, 727
of arterial plaque thrombogenesis, 7
of cardiac muscle cells after irradiation, 131
of cellular autophagocytosis, 641
of cerebral endothelial cells in arbovirus encephalitis, 425
of cerebral tissue in Down's syndrome, 457
of collagen-proteoglycan relationships in epiphyseal cartilage, 443
of corneal vascularization, 691
of cultured skin fibroblasts in storage disorders, 58
of experimental lung injury, 115
of glioblastomas and astrocytomas, 589
of ileal response to hypertonic solutions, 747
of kidney in Chediak-Higashi syndrome, 217
of lung changes from ozone, 711
of lysosomes in amyloidogenesis, 97
of Mikulicz cell in rhinoscleroma, 47
of multiple intercalated discs in hypertrophied myocardium, 81
of neonatal lung after oxygen therapy, 327
of peroxidase arthritis cells, 147
of platelet adhesion to glass, 183
of protein synthesis in pancreatic beta cells, 495
of pulmonary arteries in hypoxia-induced hypertension, 377
of rheumatic heart, 623
of transplantable mouse lymphoma, 233
Encephalomyelitis
allergic, hyperacute, 247
Venezuelan equine, 425
Endothelial cells
cerebral, in arbovirus encephalitis, 425
Enzymes
kidney, and cellular autophagocytosis, 641
lysosomal
and amyloidogenesis, 97
in aortic smooth muscle cells, in hypertension, 727
Epiphyseal cartilage
collagen-proteoglycan relationships in, 443
Epithelial development
alveolar, 365
Epithelioid cells

cultured, growth kinetics and blood group expression in, 789
Estrogen-induced bone resorption
in public symphysis, thyrocalcitonin affecting, 735
Explants
resistant to invasion, 765

Fabry's disease
cultured skin fibroblasts in, 59
Fallot's tetralogy
pathogenesis of, 157
Fatty liver
and cirrhosis, ANIMAL MODEL OF HUMAN DISEASE, 817
Fibroblasts
cultured, in storage disorders, 59
Fibromuscular intimal thickening
and atherosclerosis development, 301
Fluorescent microscopy
of Mikulicz cell in rhinoscleroma, 47
Foreign body reactions
and giant cell formation, 349

Gastric ulcers
behaviorally induced, 411
Gastrointestinal response
to hypertonic solution, 747
Gaucher's disease
cultured skin fibroblasts in, 59
Giant cell formation
agents affecting, 349
Glass
blood compatibility with, protein preparations affecting, 183
Glioblastomas
electron microscopy of, 589
Gold headed cane award, 3
Gonadotropic cells
adenohypophyseal, histochemistry of, 569
Grafts
skin, immune response to, serum proteins affecting, 549
Granules
azurophilic, in transplantable mouse lymphoma, 233
Growth kinetics
in cultured epithelioid cells, 789

Hamster cheek pouch
and corneal vascularization studies, 691
Heart
electron microscopy in rheumatic disease, 623
hypertrophied, multiple intercalated discs in, 81
radiation-induced cardiomyopathy, 131
tetralogy of Fallot pathogenesis, 157
Hemorrhagic fever
Bolivian, in monkeys, 477
Hemorrhagic shock
experimental, and nitroblue tetrazolium reduction by neutrophils, 173
Histochemistry
of adenohypophysis cells, 569
Hypertension
hypoxia-induced, pulmonary arteries in, 377
and lysosomes in aortic smooth muscle cells, 727
Hypertonic solution
small intestine response to, 747
Hypoxia-induced hypertension
pulmonary arteries in, 377
Ileal response
to hypertonic solution, 747

Immune response
to Semliki Forest virus infection, 607
to skin xenograft, serum proteins affecting, 549
Immunoglobulins
affecting blood-glass compatibility, 183
Immunologic injury
arterial, and lipid-rich diet, in atherosclerosis induction, 265, 301
Intestinal response
to hypertonic solution, 747
Intimal thickening
fibromuscular, and atherosclerosis development, 301
Iodine
in thyroid psammoma bodies, in iodine deficiency, 775

Kidneys
in Chediak-Higashi syndrome, 217
protein synthesis in, and autophagocytosis, 641

Leukemia
acute, cells in, 27
Leukodystrophy
metachromatic, cultured skin fibroblasts in, 59
Light microscopy
of aortic smooth muscle cells, in hypertension, 727
of arterial changes in experimental atherosclerosis, 265, 301
of corneal vascularization, 691

differential interference contrast in, 399
of Mikulicz cell in rhinoscleroma, 47
of neonatal lung after oxygen therapy, 327
Lipid-rich diet
and arterial injury, in atherosclerosis induction, 265, 301
Lipofuscinosis
cultured skin fibroblasts in, 59
Liver
fatty, and cirrhosis, ANIMAL MODEL OF HUMAN DISEASE, 817
protein synthesis in, and autophagocytosis, 641
Lung
alveolar epithelial development in, 365
experimental injury of, 115
neonatal, oxygen therapy affecting, 327
ozone affecting, 711
pulmonary arteries in hypoxia-induced hypertension, 377
Lymphocytes
in fatal viral meningoencephalitis, 607
Lymphoma
transplantable, in mice, 233
Lysosomes
in aortic smooth muscle cells, in hypertension, 727
and early amyloid deposits, 97

Medulloepitheliomatous neoplasmas
adenovirus-induced, 671
Melanocorticotropic cells
adenohypophyseal, histochemistry of, 569
Meningoencephalitis
amebic, ANIMAL MODEL OF HUMAN DISEASE, 545
fatal, lymphocytes in, 607
Mesenchyme
vascularized, invading explanted tissues, 765
Mikulicz cell
in rhinoscleroma, 47
Mucoid cells
pituitary, histochemistry of, 569
Mucopolysaccharidoses
cultured skin fibroblasts in, 59
Mycoplasma
arthritis from, ANIMAL MODEL OF HUMAN DISEASE, 261
Myocardium
hypertrophied, multiple intercalated discs in, 81

Neutrophils
nitro blue tetrazolium reduction by, in experimental shock, 173
Niemann-Pick disease
cultured skin fibroblasts in, 59
Nitro blue tetrazolium reduction
by neutrophils in experimental hemorrhagic shock, 173

Organ cultures
glioblastomas and astrocytomas in, 589
and transplantable lymphomas in mice, 233
Oxygen
hypoxia-induced hypertension, pulmonary arteries in, 377
therapy with, affecting neonatal lung, 327
Ozone
lung changes from, 711

Pancreatic beta cells
protein synthesis in, 495
Peroxidase arthritis, 147
Pertussis vaccine
and experimental allergic encephalomyelitis, 247
Pituitary cells
histochemistry of, 569
Plaques
arterial, in rabbit, thrombogenesis of, 7
senile, in Down's syndrome, 457
Platelets
adhesion to glass, protein preparations affecting, 183
Pneumonia
bacterial, experimental, 115
Protein
preparations affecting blood-glass compatibility, 183
in serum, affecting immune response to skin xenograft, 549
synthesis in liver and kidney, and autophagocytosis, 641
synthesis in pancreatic beta cells, 495
Proteoglycans
and collagen in epiphyseal cartilage, 443
Proteus **infection**
and experimental lung injury, 115
Psammoma bodies
thyroid, iodine in, in iodine deficiency, 775
Pubic symphysis
bone resorption in, thyrocalcitonin affecting, 735

Pulmonary arteries
in hypoxia-induced hypertension, 377
Puromycin
and giant cell formation, 356

Radiation
cardiomyopathy from, 131
and giant cell formation, 354
Reticuloendothelial cells
in amyloidogenesis, 97
Rheumatic heart disease
electron microscopy of heart in, 623
Rhinoscleroma
Mikulicz cell in, 47

Sanfilippo's disease
cultured skin fibroblasts in, 59
Semliki Forest virus infection
cerebrospinal fluid cells in, 607
Senile dementia
and Down's syndrome, 457
Shock
experimental hemorrhagic, and nitro blue tetrazolium reduction by neutrophils, 173
Skin
cultured fibroblasts of, in storage disorders, 59
immune response to xenograft, serum proteins affecting, 549
Small intestine
response to hypertonic solution, 747
Spielmeyer-Vogt disease
cultured skin fibroblasts in, 59
Staining properties
of cells in adenohypophysis, 569
Stomach ulcers
behaviorally induced, 411
Storage disorders
cultured skin fibroblasts in, 59
Stress
behavioral, gastric lesions from, 411
Synovial tissue
in peroxidase arthritis, 147

Tetralogy of Fallot
pathogenesis of, 157
Thrombogenesis
of arterial plaque in rabbit, 7
Thyrocalcitonin
and bone resorption in pubic symphysis, 735
Thyroid psammoma bodies
iodine in, in iodine deficiency, 775
Thyrotropic cells
adenohypophyseal, histochemistry of, 569
Transferrin
affecting blood-glass compatibility, 183
Tumors
adenovirus-induced medulloepithelio-matous neoplasms, 671
electron microscopy of glioblastomas and astrocytomas, 589
transplantable mouse lymphoma, 233

Ulcers
gastric, behaviorally induced, 411

Vascularization
corneal, experimental model of, 691
Vascularized mesenchyme
invading explanted tissue, 765
Viruses
adenovirus-induced medulloepithelio-matous neoplasms, 671
arbovirus encephalitis, 425
Bolivian hemorrhagic fever infection, 477
cerebrospinal fluid cells after Semliki Forest virus infection, 607

Xenografts
immune response to, serum proteins affecting, 549
